VFIS OF TEXAS

Invites you to attend the following Emergency Service Training Program

Emergency Vehicle Driver Training (Fire) Instructor Level

This course is designed to teach the instructional methodology to potential and existing instructors needed to deliver the following program. The operator of emergency vehicles in today's society carries a heavy responsibility. The penalty for not adequately training your operators also carries legal consequences. Emergency vehicle operators and the entities they represent have been held both criminally and civilly responsible for their actions. This program was developed to teach the emergency vehicle operator (EVO) proper driving technique, the mental as well as the physical aspects of the driving task. The program points out the long-term impact of an accident involving an emergency vehicle on the operator, the emergency service organization and the community in which they serve.
